

The following apps are available on the tablet for your convenience.

Note. This is not an exhaustive list and there may be more apps available for use on the tablet.

Available Tablet Apps

App Icon	App	Description
	Ditat Mobile Dispatch	Subscription-only application (additional cost applies) for the trucking industry allowing dispatchers to send trip information to drivers and receive updates on trip status (loaded, completed, etc.)
	eFleetSuite	Commercial-grade compliance application used to identify and manage hours-of-service and maintenance violations associated with FMCSA's ELD regulations.
	ELD Complete	ELD Complete hours of service application is a powerful but easy-to-use tablet-based service certified with FMCSA regulations for electronic logs and vehicle inspections.
	ELD Complete Driver Guide	The ELD Complete guide acts as a companion guide to the ELD Complete application, allowing users quick and easy process and question guidance.
	Magellan SmartFleet	Fleet navigation application that provides navigation specifically created for vehicle fleets with truck-protocols in mind, ensuring your team navigates the road ahead safely.
	Messaging	Messaging app allows users to communicate with in-office managers, also supporting multi-point dispatch and routing (Magellan software required).
	Updater	Application update manager helps manage the process for updating apps on the GPSI Android MDT.
