

From the tablet, you can add, edit, delete, certify, and view driver logs from the Logbook.

Adding, Deleting and Editing Logs

Getting to the Logbook

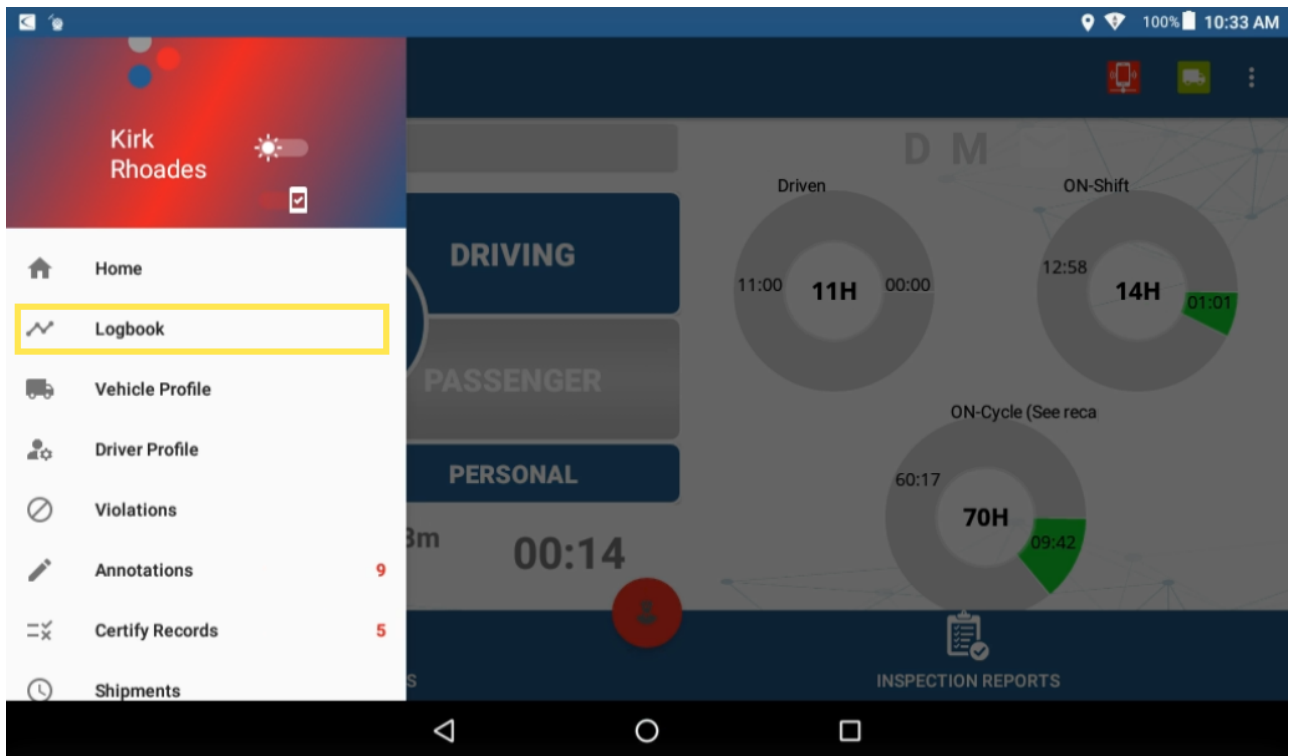

► Navigating to the Logbook:

1. From the Home Screen, tap the Menu List icon.

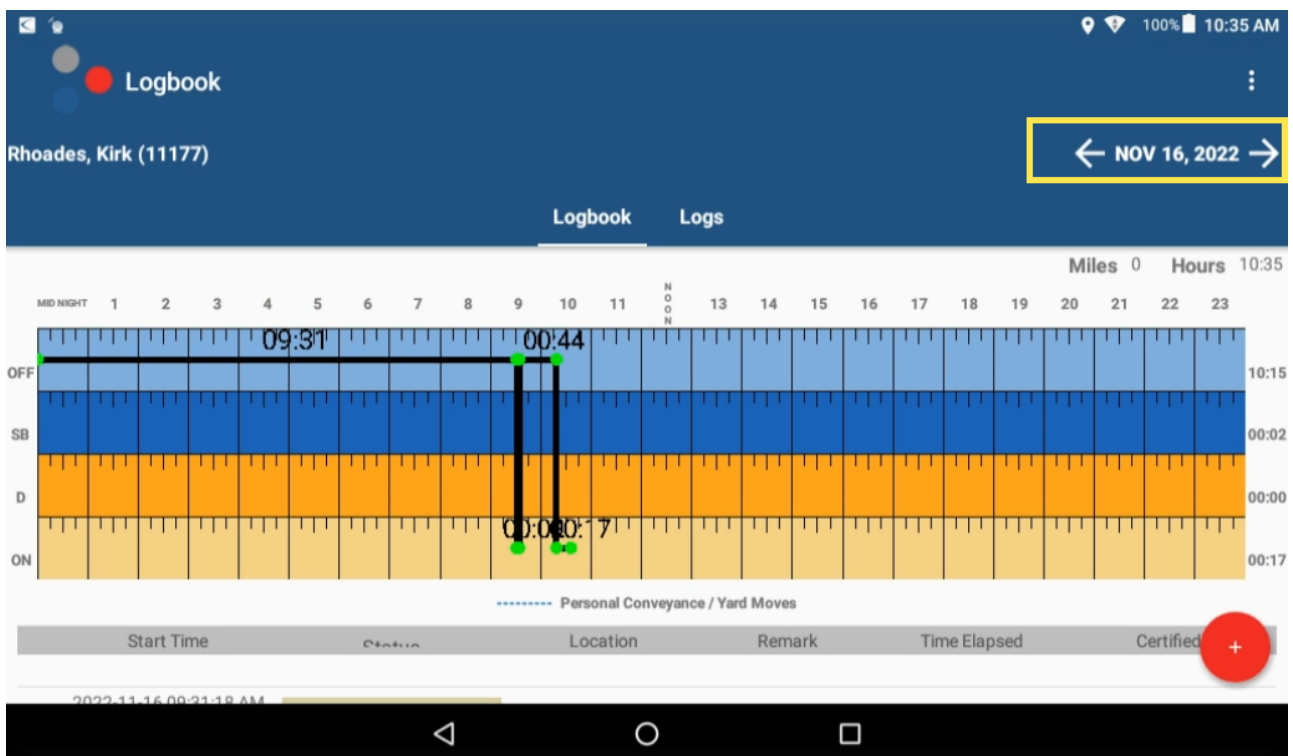

The Menu List expands.

2. Tap **Logbook**.

The Logbook opens to the log from the current date.

- Use the back and forward arrows around the date to navigate to the logbook for the day you would like to view and/or edit.

- Tap the + icon (bottom right corner of screen) to expand the action buttons.
- Use applicable action buttons to make necessary changes then tap **Save & Finish**.

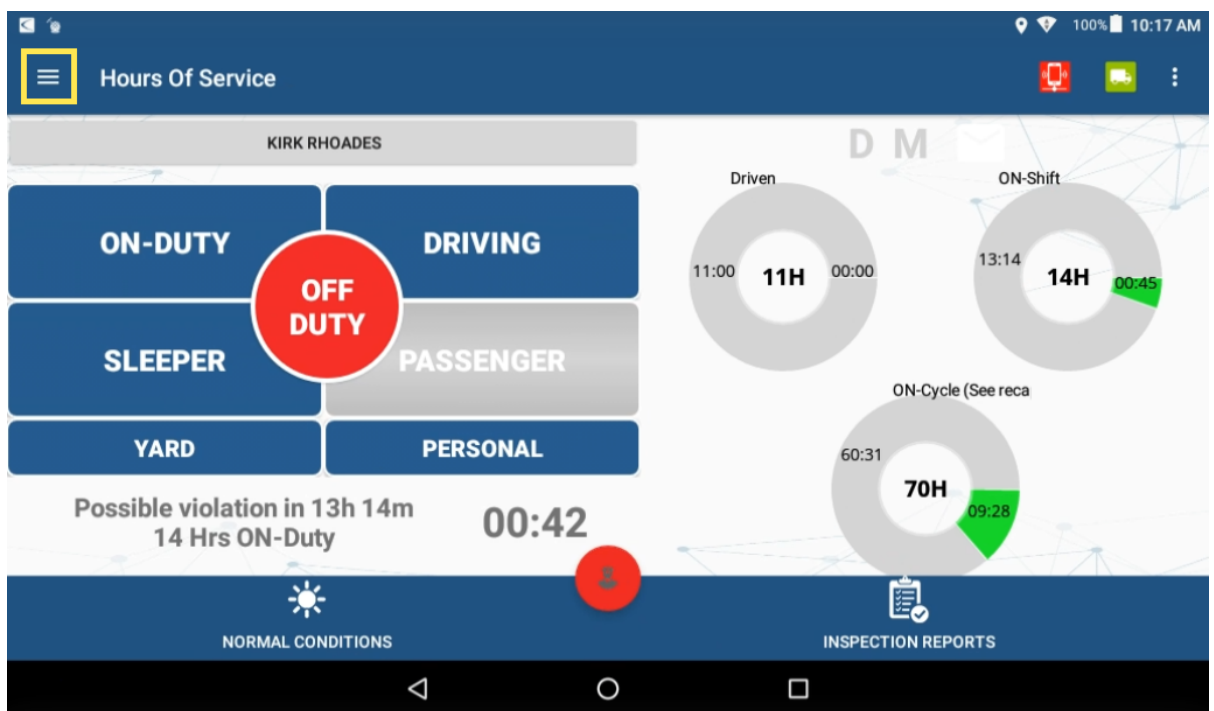

Note. Driving time can only be increased on automatically recorded records and deleted, reduced or increased on manually recorded records.

Getting to Logs

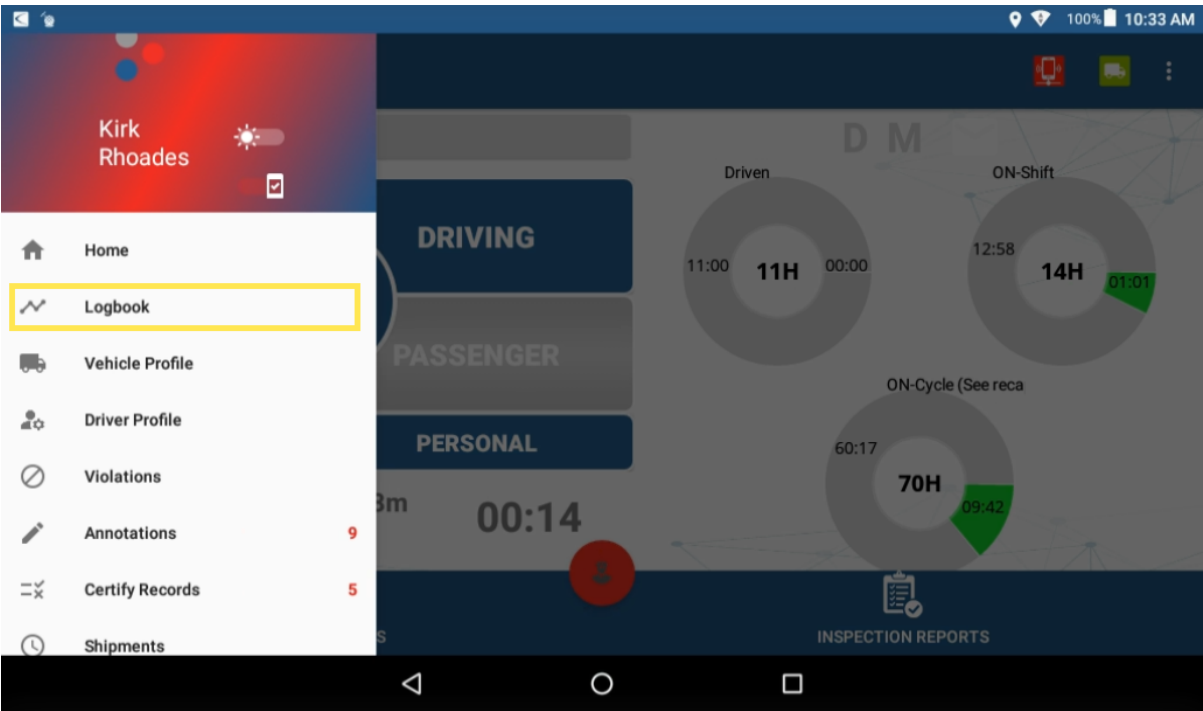

► Navigating to Logs:

1. From the Home Screen, tap the Menu List icon.

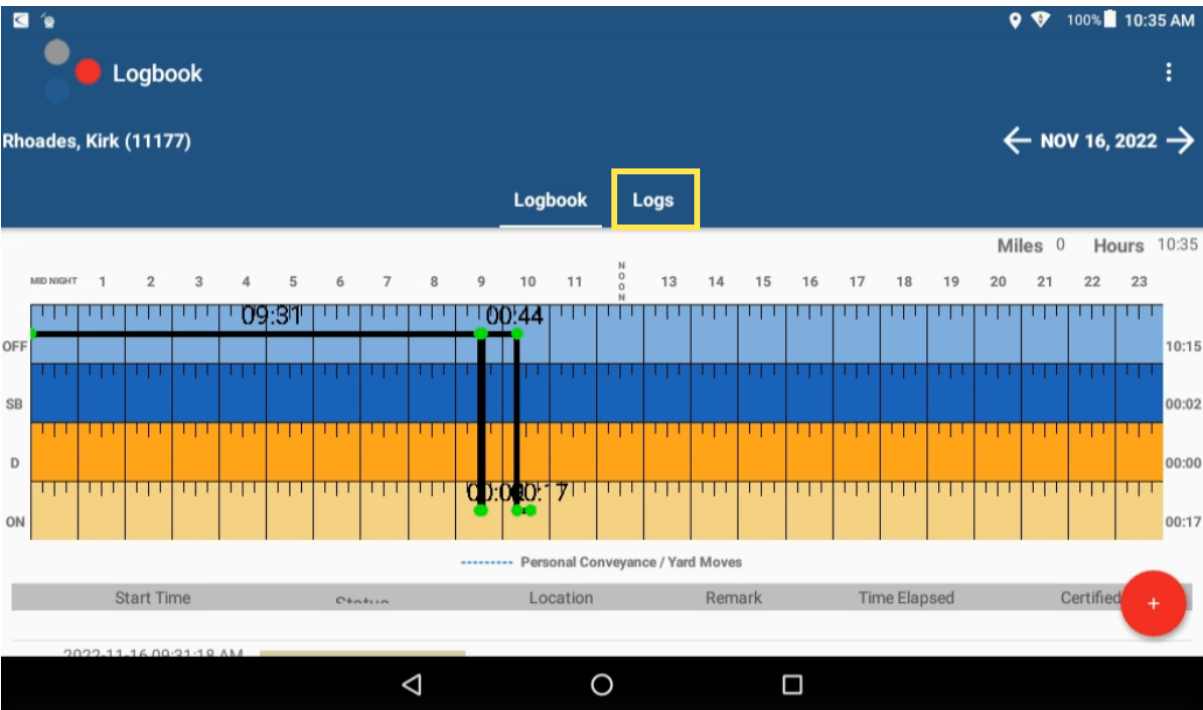

The Menu List expands.

2. Tap **Logbook**.

The Logbook opens to the log from the current date.

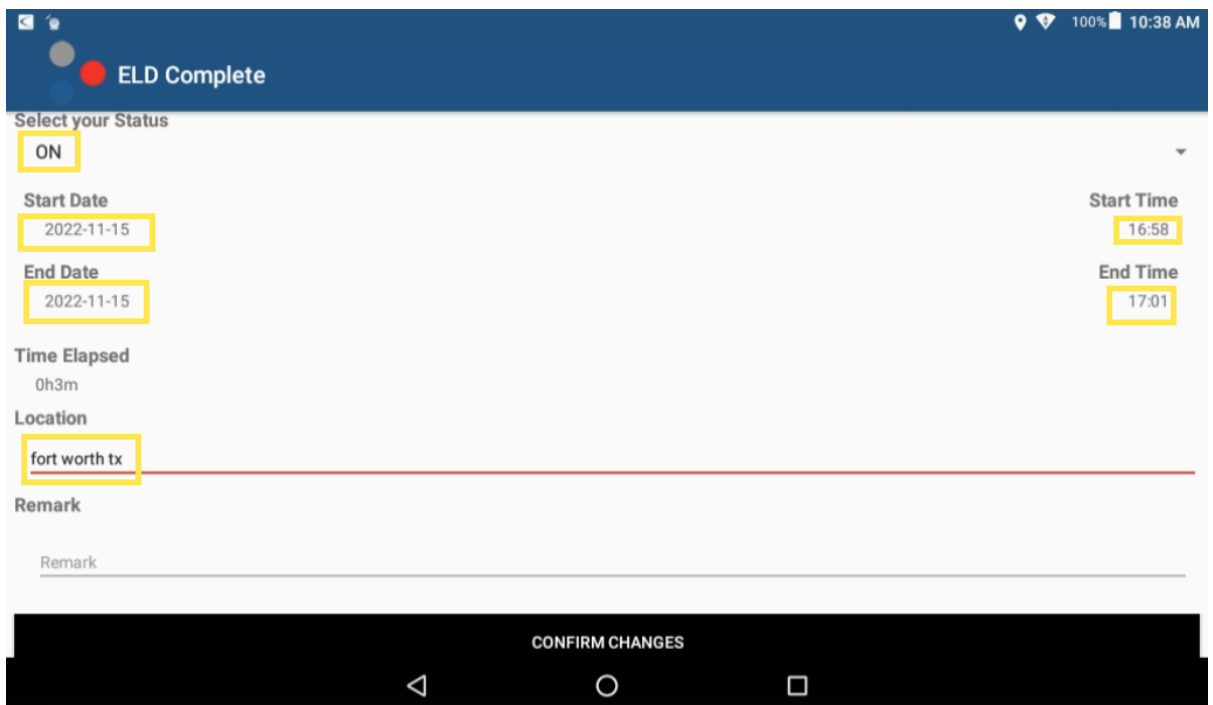

3. Tap **Logs** to view a list of log records.

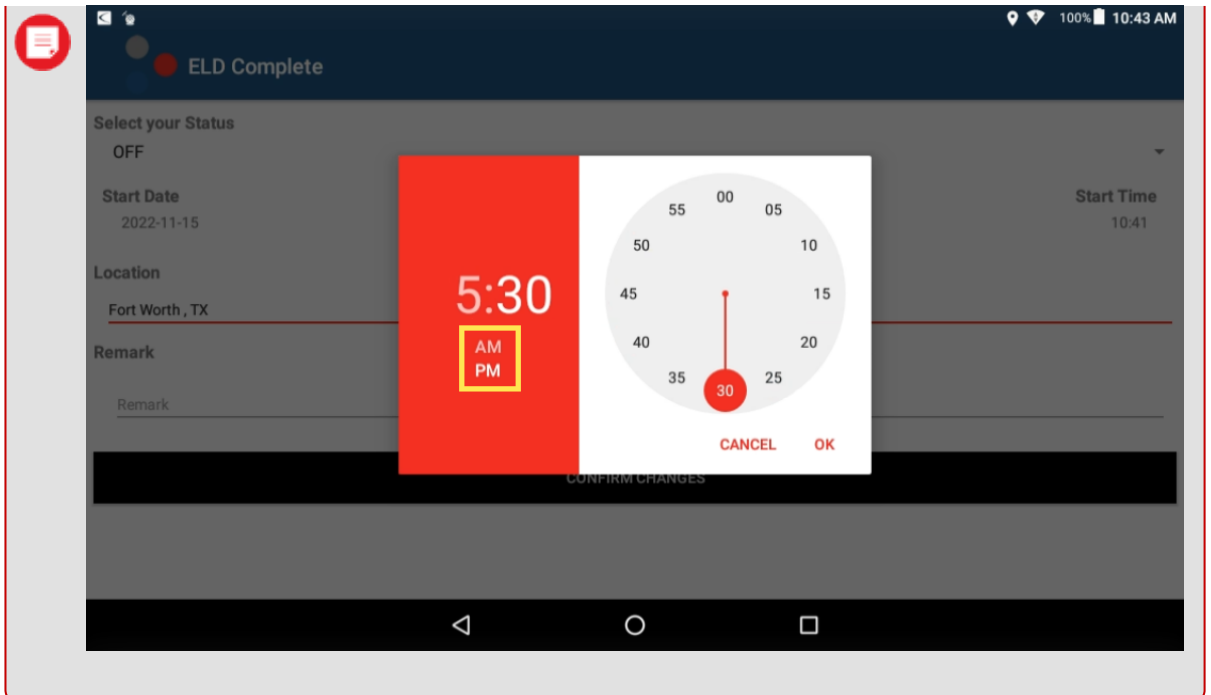

4. Use the editing icons for the date you would like to edit or to add a new log tap +.

5. Make the necessary changes, tap on the log status, start/end dates, start/end times, and location to make your changes.

Note. When adjusting times, please select the hour/minute and ensure that you indicate AM or PM.

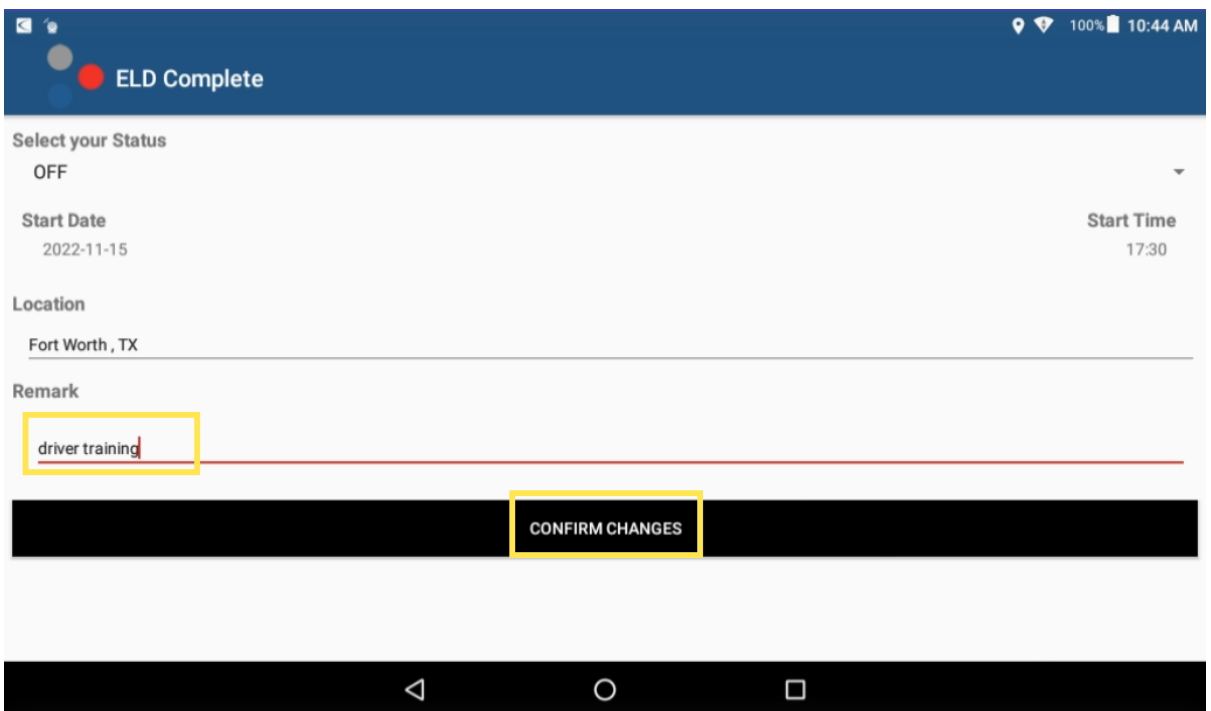

The screenshot shows the 'ELD Complete' app interface. A modal is open for selecting a time. The modal has a red background with a large digital clock display showing '5:30'. Below the time, there are 'AM' and 'PM' buttons, with 'PM' highlighted. To the right of the time display is a circular analog clock face with numbers from 00 to 55 in increments of 5. A red dot on the analog clock is positioned at the 30 mark. At the bottom of the modal are 'CANCEL' and 'OK' buttons. The background app interface shows 'Select your Status' with 'OFF' selected, 'Start Date' as '2022-11-15', 'Location' as 'Fort Worth, TX', and a 'Remark' field. The 'Start Time' is '10:41'. A 'CONFIRM CHANGES' button is visible at the bottom of the app screen.

6. Enter a remark explaining the reason of the change (mandatory) and then tap **Confirm Changes**.

Note. If you have accidentally recorded driving time, add the following remark: "System or User Error" to the status to avoid having the driving time counted against the Driving windows for the day.

The screenshot shows the 'ELD Complete' app interface after the time selection. The 'Remark' field now contains the text 'driver training'. The 'CONFIRM CHANGES' button at the bottom of the screen is highlighted with a yellow box. The 'Start Time' has updated to '17:30'. The app interface includes the same status and location information as the previous screenshot.

Note. Daily ON-DUTY, cycle ON-DUTY and possible violations will be calculated

according to the new record change.

Certifying Records

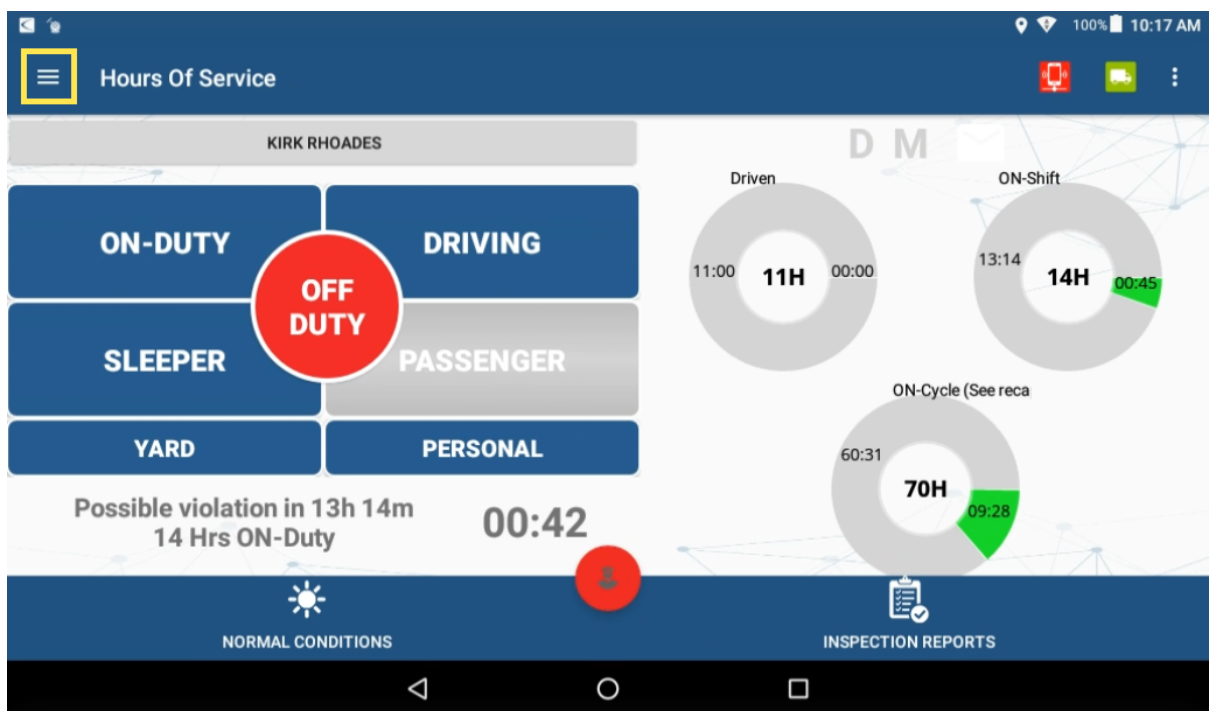

You can certify logs from the tablet.

Certifying Logs

You can certify your logs at any time. At the end of each 24-hour period, the tablet automatically prompts the driver to certify logs for the last 24 hours period. Additionally, during login and logout, the driver is prompted to certify logs.

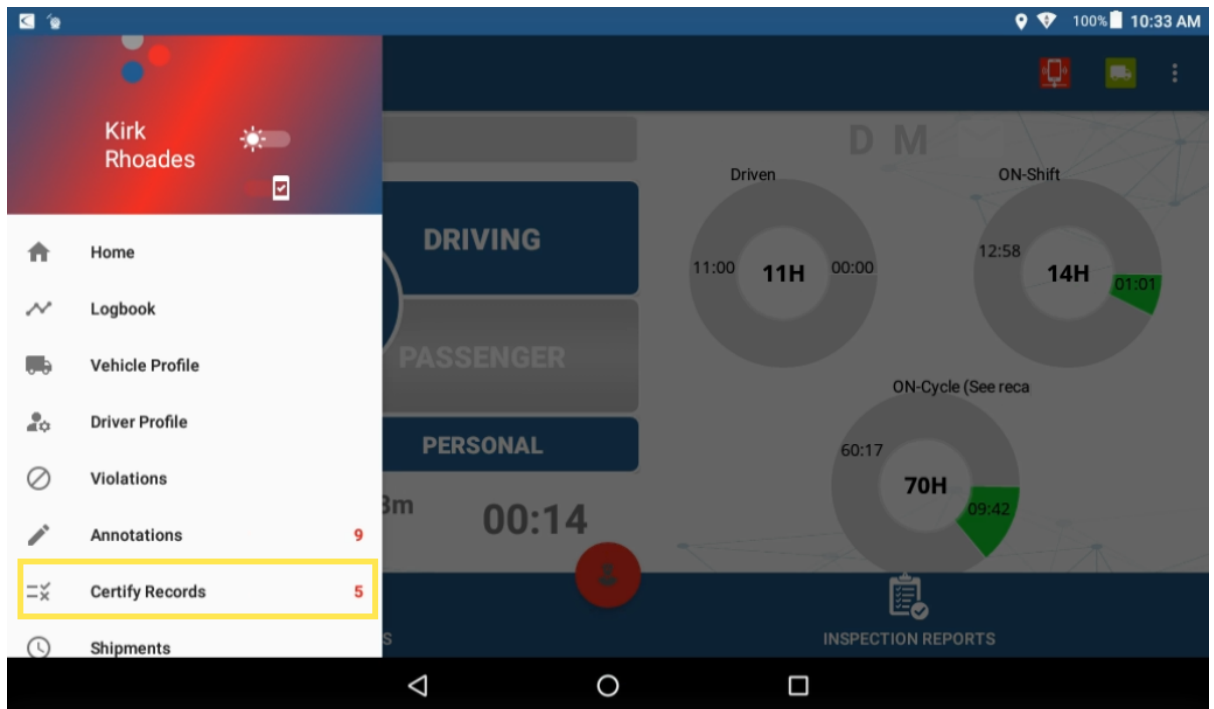

► How to certify logs:

1. From the Home Screen, tap the Menu List icon.

The Menu List expands.

2. Tap **Certify Records**.

3. Select the day or days you would like to certify.
4. Select the 24-hour period you want to certify then tap **CERTIFY**.
5. Agree to the statement prompt.

The log is certified.
