

Messaging allows you to send SMS messages from within the portal to your fleet vehicles. You can send messages to vehicles directly from the Vehicle Card in the Portal. Messages can be sent to any vehicle with a valid phone/SMS number. You can also review received messages from the Vehicle Card.

Note. You must have the Messaging permission enabled in the [User Access List](#) and SMS Messaging enabled in the [Menu Access List](#).

The screenshot shows the messaging interface for a vehicle with ID 8013-01. At the top, there is a header with a back arrow, a speech bubble icon, the vehicle ID, and a close button. Below this, the 'Message To:' field displays a blurred phone number ending in 662, with a link to 'Edit Vehicle Contact Info'. The message history shows two outgoing messages from the system: 'Please make sure you get your oil changed today!' at 07:52 PM and 'Don't forget to rotate your tires on the way back to the office today!' at 07:54 PM. An incoming message from the phone number 801-560-3662 at 07:54 PM says 'Ok, will do!'. At the bottom, there is a text input field labeled 'Message' and a 'Send' button.

Sending Messages

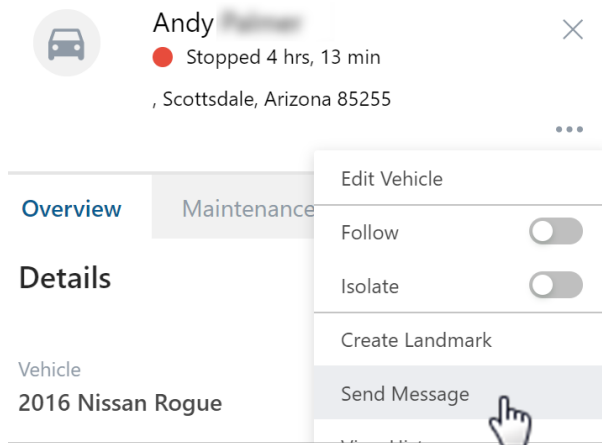

To send a message from the Vehicle Card, the applicable vehicle **must** have valid vehicle contact information associated with the vehicle.

► How to send a message:

1. From the Vehicle Card, click the ellipsis icon (...).

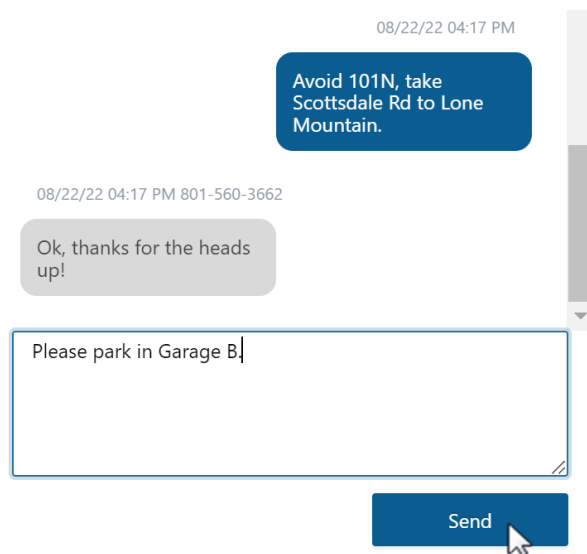

A menu appears.

2. Click **Send Message**.

The Messaging page appears. You can view all messages sent to/received from this vehicle contact from this page. All messages display time and date stamps.

3. Enter your message and click **Send**.

Note. You can adjust the size of the text field by clicking on the bottom left-hand corner of the box and dragging down to expand.

Adding or Editing Vehicle Contact Information

Vehicle contact information can be added and/or edited directly from the Vehicle Card in two ways: using the Messaging feature or from the Admin tab.

Add/Edit Via Messaging Feature

► Add/Edit Contact Info - Messaging Feature:

1. From the Vehicle Card, click the ellipsis icon (**...**).

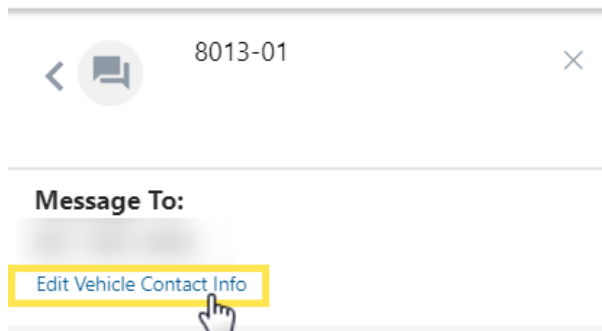

A menu appears.

2. Click **Send Message**.

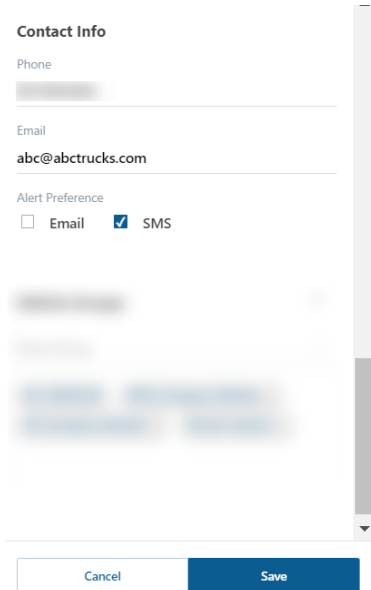

The Messaging page appears.

3. Click **Edit Vehicle Contact Info**.

4. Scroll down to the Contact Info section.
5. Enter or edit Phone and/or Email information and use the checkboxes to select an Alert Preference (Email or SMS).
