If the ST-1200 device ever becomes unresponsive, meaning its standard reporting has ceased but you're certain the unit is charged, then reset the device following the below instructions so that it can restart its programming and resume reporting. This process requires the download and use of the (Orbcomm) Field Support Tool app (iOS|Android).

Resetting the ST-1200

Reset with an Android Device

1. On your mobile device, download the device Field Support Tool app.

2. Tap + to subscribe to services.

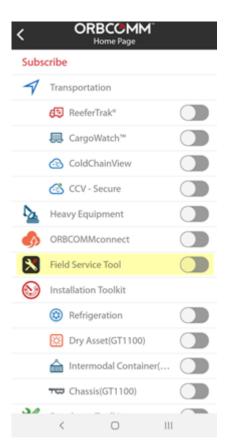

ORBCOMM Home Page
Service Subscription 1. Please click to subscribe to services
2. Please click to change your user settings
to change your user settings

3. Tap Field Service Tool.
